

Alumni Chapters – Interested in Joining?

What is it?

The George Brown College Centre for Business Alumni Chapter connects alumni, faculty, and current students through professional, social, academic, and philanthropic initiatives. These chapters foster the exchange of skills and ideas, building a community that creates meaningful opportunities and positive impacts.

How does it work?

Each chapter will have a core committee who are the selected alumni. The core committee will plan the initiative that they are interested in which will be reviewed. Upon approval, Centre for Business and GBC Alumni Relations will be there to support the Core Committee with their initiatives.

Who can join the CfB Alumni Chapter core committee?

Any Centre for Business Alumni is eligible to apply.

What are the Benefits?

A professional development opportunity for you to come together and lead alumni initiatives. This also gives you the chance and a platform to stay connected with your alma mater! Several events, both social and professional, are held throughout the year. These events offer an invaluable opportunity for alumni to meet, network, and renew friendships. We are deeply grateful to the alumni volunteers who make these networking opportunities available for members of their learning community.
